

## LATITUDES OF BRITISH COLUMBIA CITIES AND TOWNS BY REGION

### SOUTHERN CITIES SERVED BY THE FIRST CROSSING

Three of every four British Columbians are served by our southern transportation routes. The vast majority live less than 100 km north of the border (49°)

Victoria	48.4°	67 km below 49°
Ladysmith	49.0°	0 km
Vancouver	49.3°	33 km above 49°
Abbotsford	49.1°	11 km
Penticton	49.5°	55 km
Trail	49.1°	11 km
Nelson	49.5°	55 km
Cranbrook	49.5°	55 km

### NORTHERN CITIES SERVED BY THE SECOND CROSSING

Moving north, the next fully trans-provincial road system is about 500 km north of the southern routes.

Prince Rupert	53.9°	544 km
Terrance	54.5°	606 km
Smithers	54.8°	644 km
Prince George	53.9°	544 km
Fort St. John	56.2°	800 km

### CENTRAL CITIES TO BE SERVED BY THE THIRD CROSSING

We contend that better connecting the 20% of the population that live to the north of our southernmost populations will be true province building.

#### Coastal Communities

Port Alberni	49.2°	22 km
Nanaimo	49.2°	22 km
Courtenay	49.7°	77 km
Campbell River	50.0°	111 km
Port Hardy	50.7°	189 km
Powell River	49.8°	88 km
Squamish	49.7°	77 km

#### Interior Communities

Lillooet	50.7°	189 km
Kamloops	50.7°	189 km
Williams Lake	52.1°	344 km
Salmon Arm	50.7°	189 km
Vernon	50.3°	144 km
Kelowna	49.9°	100 km
Revelstoke	51.0°	222 km
Golden	51.3°	255 km
